

INTERPOL

In synergy with the FEEU Project

The FEEU (Fingerprint Exchange in the European Union) Project

- ❖ All parties involved from the start, ACRO, NCB LONDON and IPSG
- ❖ First exchange of fingerprints commenced 20/10/2011
- ❖ Sent every week via a secure file share on i24/7 where they are downloaded by INTERPOL.
- ❖ From October to December a total of 2200 fingerprints were sent to INTERPOL from ACRO
- ❖ INTERPOL recommendation for data exchange

What to send

Tenprints

- Fingerprints from foreign nationals arrested in your country
- Nationals suspected of transnational crimes

Crime Scene Marks

- Unsolved Crimes

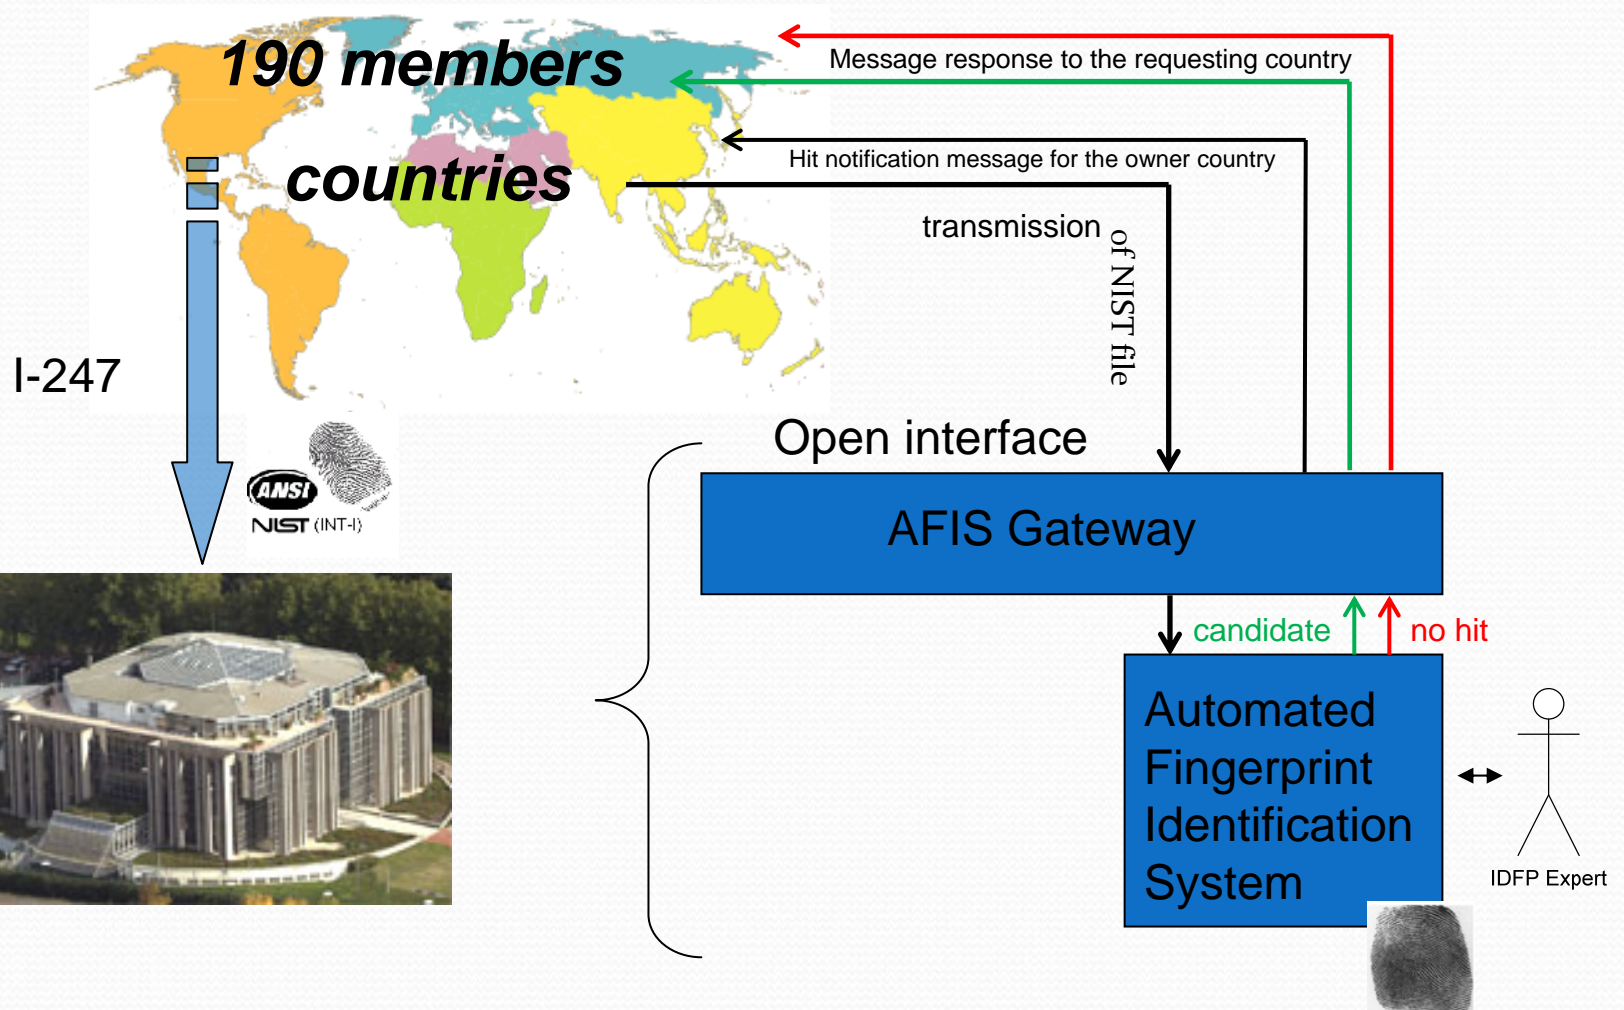

Why INTERPOL?

The FEEU Projects compliments INTERPOLs objectives – we can play a role.

- ❖ Database already exists for member countries use
- ❖ INTERPOL can manage high volume submissions
- ❖ All member countries can connect to the database
- ❖ Data restrictions in place therefore data is secure
- ❖ Provide tangible results, relevant to both the European and International arena.

AFIS Gateway

Benefits for the FEEU

- ❖ Searching against data from 190 member countries
- ❖ Automated no hits once the Gateway is in place
- ❖ One hour reply for verified hits
- ❖ Providing intelligence that can be passed on to national UK police forces in a timely manner

Benefits for INTERPOL

- ❖ Proving we can assist and adapt to Member Countries requirements
- ❖ Creating a database of relevance for all 190 Member Countries
- ❖ Increasing the data set stored at INTERPOL with relevant data respecting INTERPOL recommendations
- ❖ Providing a good service with limited manual intervention

Resources

- ❖ The introduction of IDENT₁ to ACRO means the exchange will be extremely efficient
- ❖ Uploading files to INSYST is easy and takes only 5 minutes per batch of ten fingerprints.
- ❖ Verification of results is rapid
- ❖ In INTERPOL the High Volume Import means 300 prints can be inserted into AFIS in one go
- ❖ Updating PNC and sending intelligence to other UK police forces efficiently
- ❖ Fingerprint processing, collation and analysis of results, message to ACRO is all completed within one day.

Success

- 1) Hit made with fingerprints sent from ACRO against fingerprints in the INTERPOL AFIS from Romania for a national there who had committed aggravated theft.
- ❖ On further investigation it was discovered that the individual was **WANTED** by Romania and that there is a warrant out for his arrest – A GREAT RESULT!

Out of 2200 fingerprints sent – 23 HITS have been made.

The Future

**To ensure the participation of other
Member Countries**

**THANK
YOU**
