

Network of Judicial Registers

November, 2008

Activities and results of the NJR project (February – November 2008)

- ✓ New NJR partners:

BG, NL

- ✓ NJR partners with operative data exchange:

BE, CZ, DE, ES, FR, LU

- ✓ NJR partners preparing the data exchange:

BG, IT, NL, PL, PT, SI, SK, UK

- ✓ Coaching:

BE:	NL	
DE:	BG, SI, UK	[CZ ✓]
ES:	PT	
FR:	PL, IT, SK	[LU ✓]

- ✓ NJR observers:

AT, RO, SE

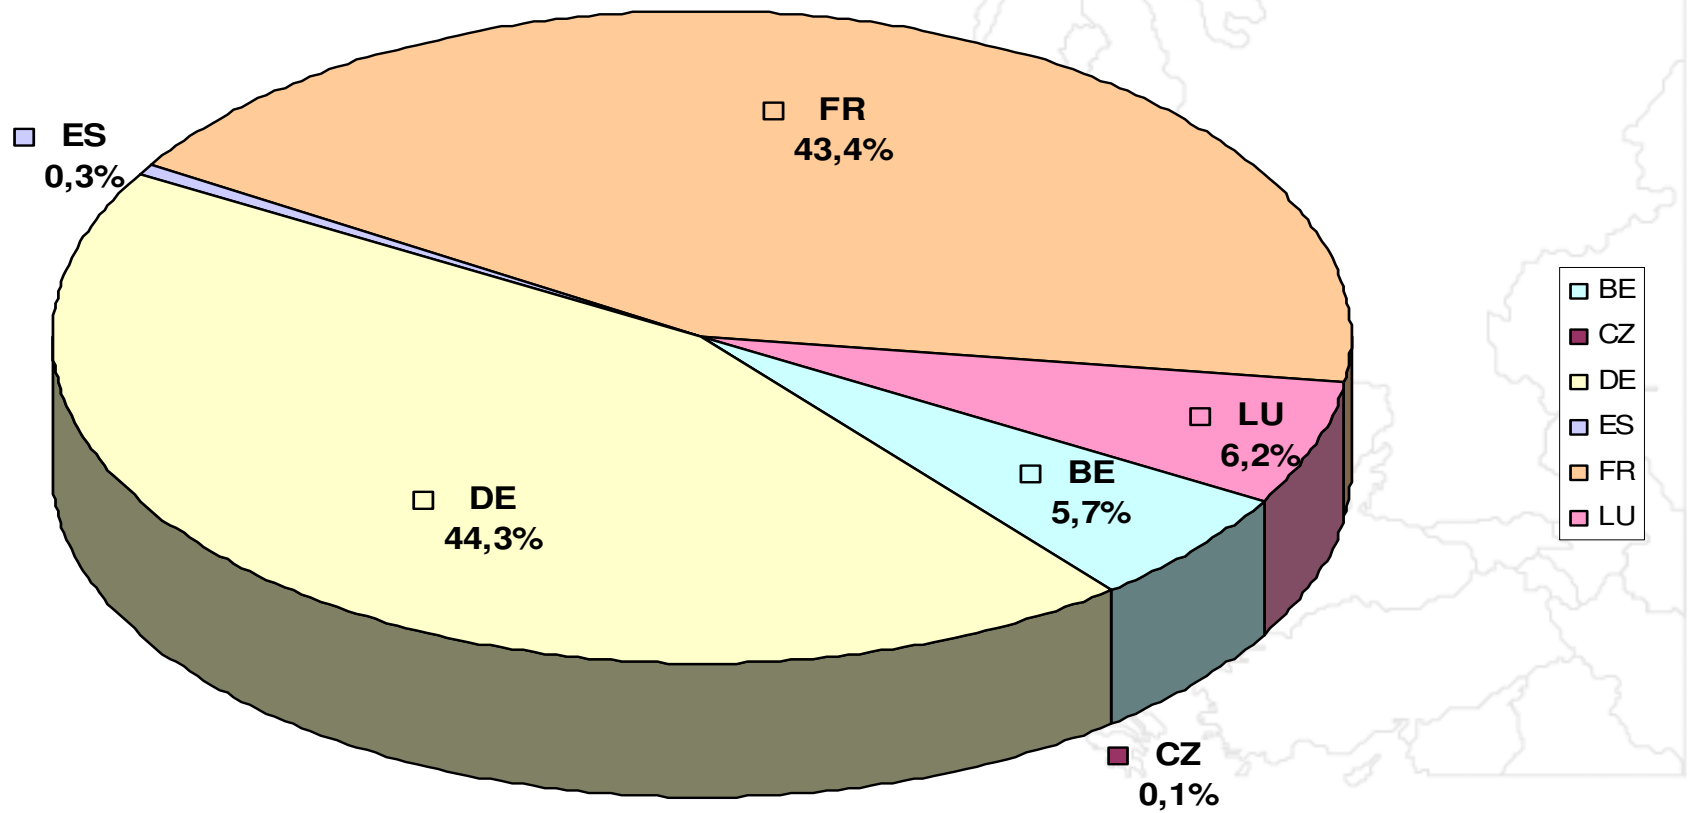

Activities and results of the NJR project (February – November 2008)

- ✓ Improvement of common documentation considering especially experiences of new partners
- ✓ Preparation of implementing the table of sanctions and parameters of sanctions developed by the Judicial Workgroup of the NJR project
- ✓ Brainstorming about rules of a common Change Management suitable and practicable for 14 or more project partners
- ✓ Support to the EU Commission with respect to the development of the „reference implementation“ to be connected to NJR
- ✓ Contributing NJR experience to the ECRIS discussion

NJR Statistics:

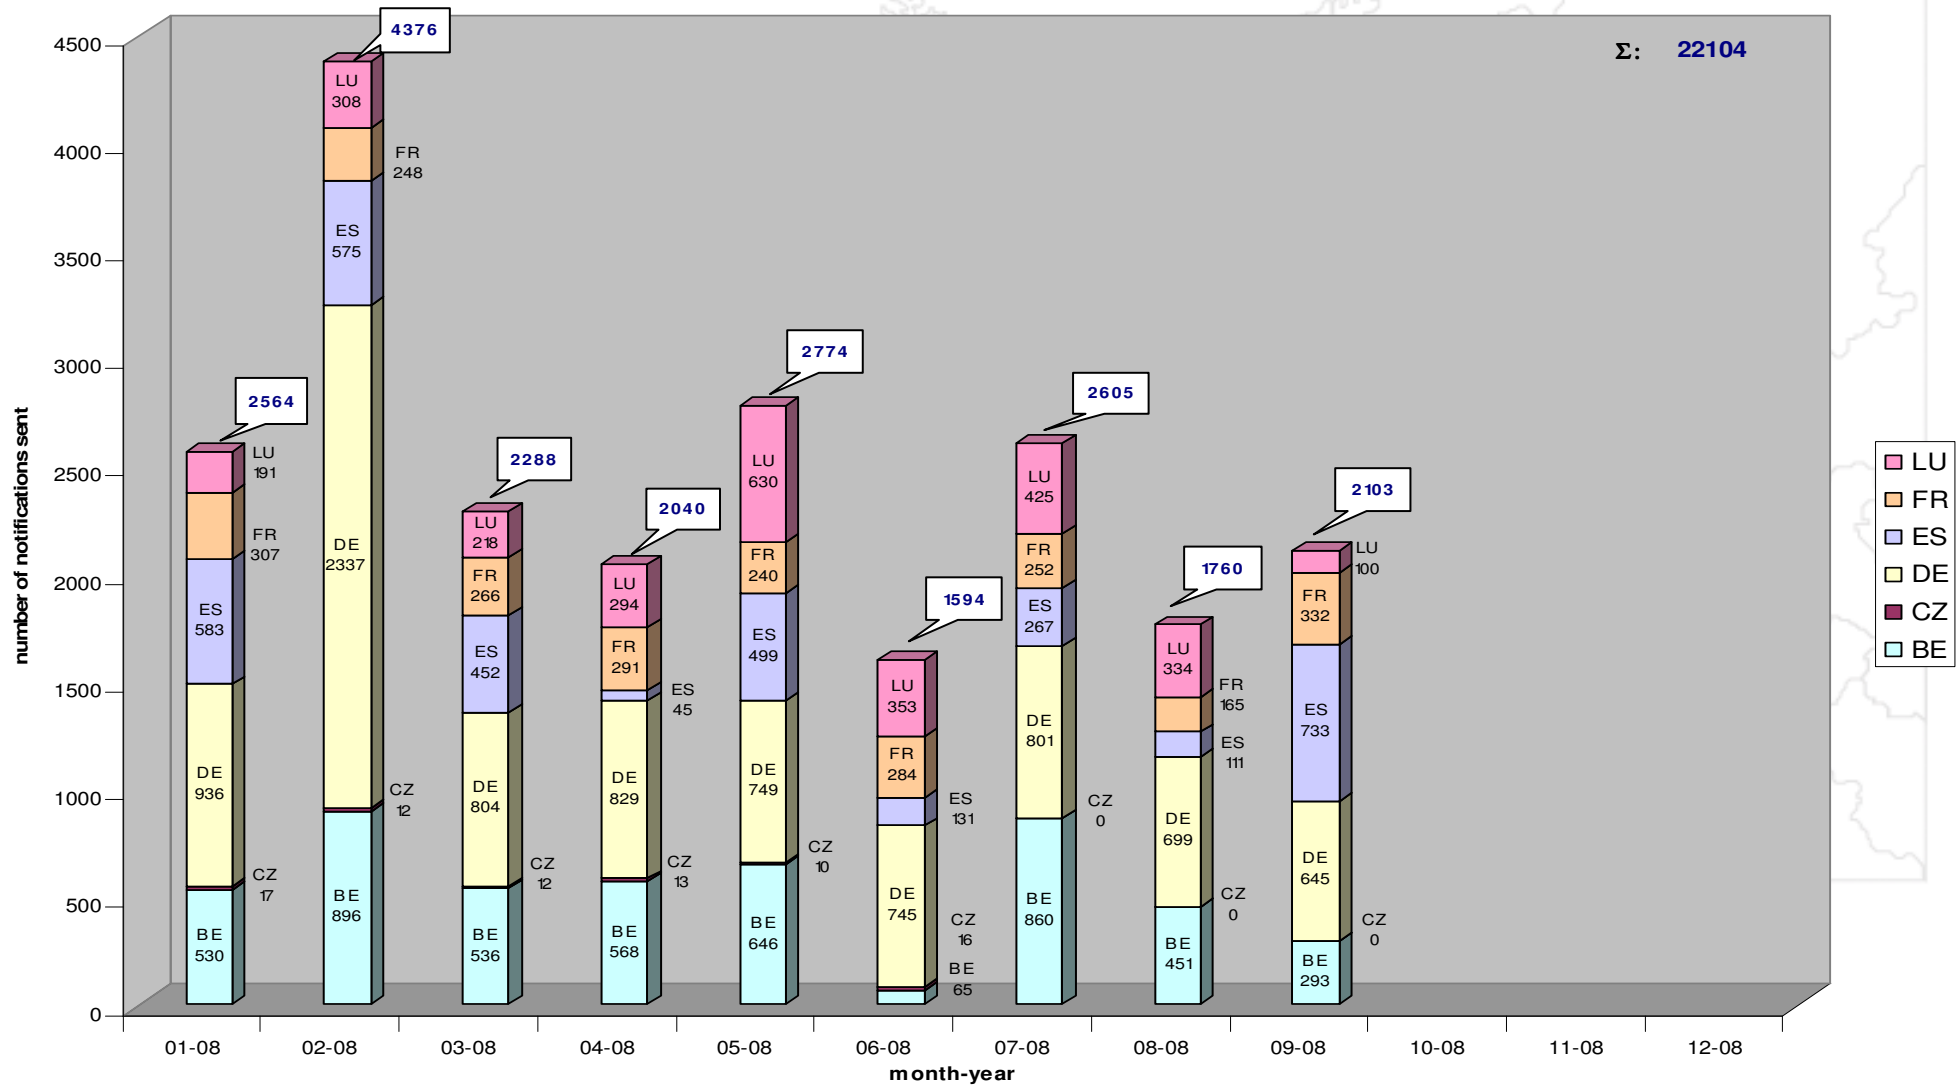

NJR - Requests (January 2008 - September 2008)

NJR Statistics:

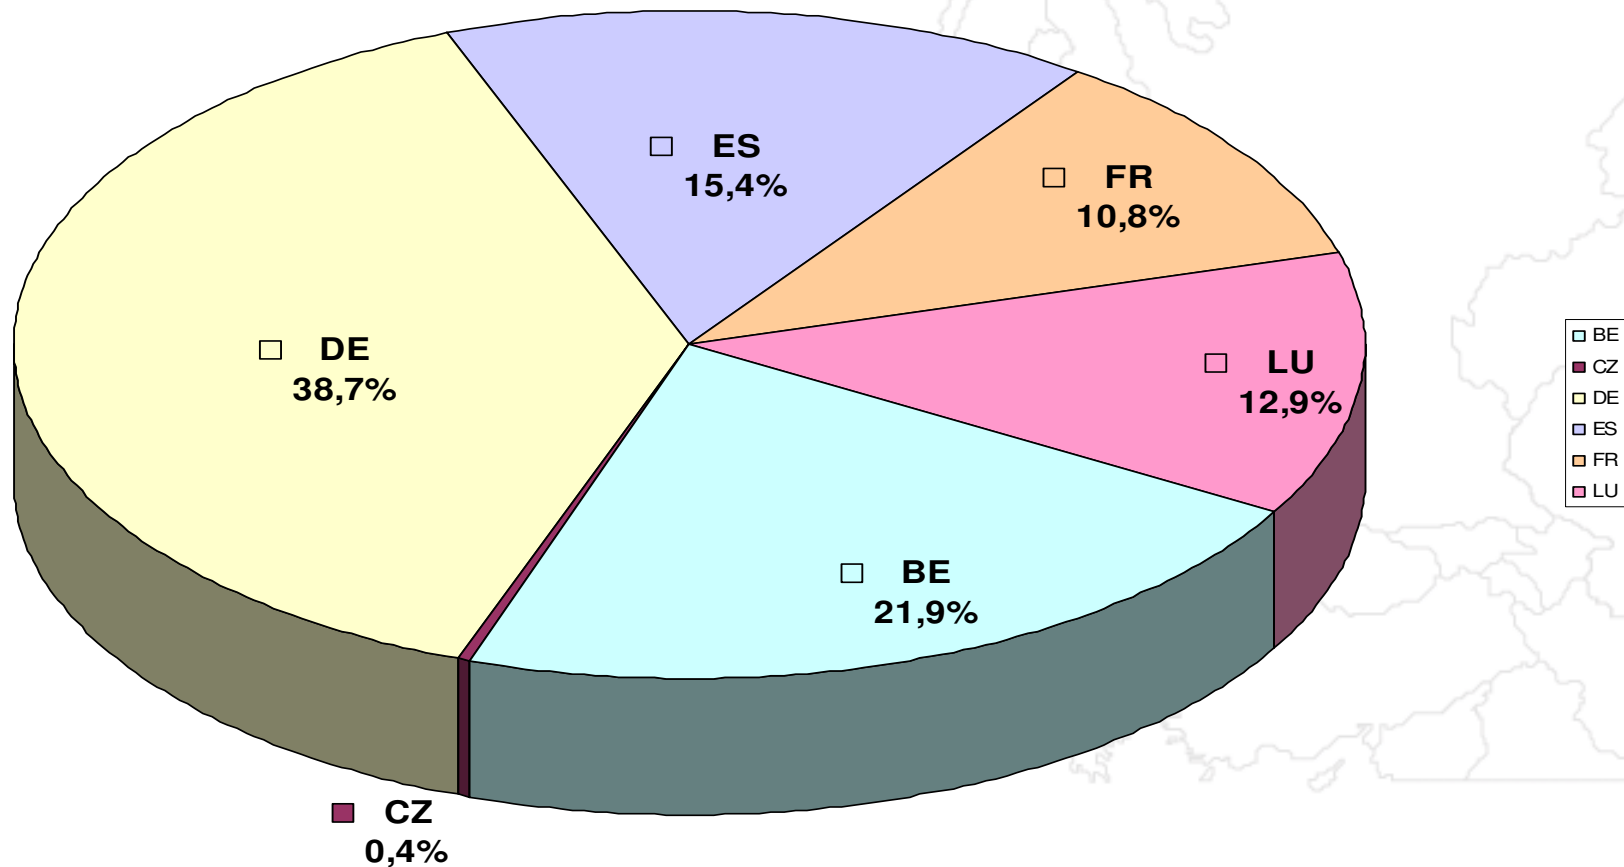

Notifications sent by NJR partners in 2008

NJR Statistics:

NJR - Notifications (January 2008 - September 2008)

Special topic: “NJR meets ECRIS”

- ✓ Compatibility between
 - existing NJR common reference table of categories and sub-categories of offencesand
 - new ECRIS table of offences

- ✓ Compatibility between
 - existing „new“ NJR common reference table of categories, sub-categories and parameters of decisions (sanctions)and
 - new ECRIS tables of sanctions and parameters of sanctions

- ✓ Brainstorming about
 - inclusion of new ECRIS table of parameters of offences in NJR data exchange

Special topic: “Reference Implementation”

? What can/should the reference implementation be used as? (Or not)?

Stand-alone application (?)
(Manual input and output ...)

Interface between own register application and NJR data exchange (?)
(Automatic input and output ...)

... (?)

? How can the reference implementation be integrated in the existing NJR data exchange and its further development?

Test procedures (?)

Responsibilities for decisions touching further NJR development (?)

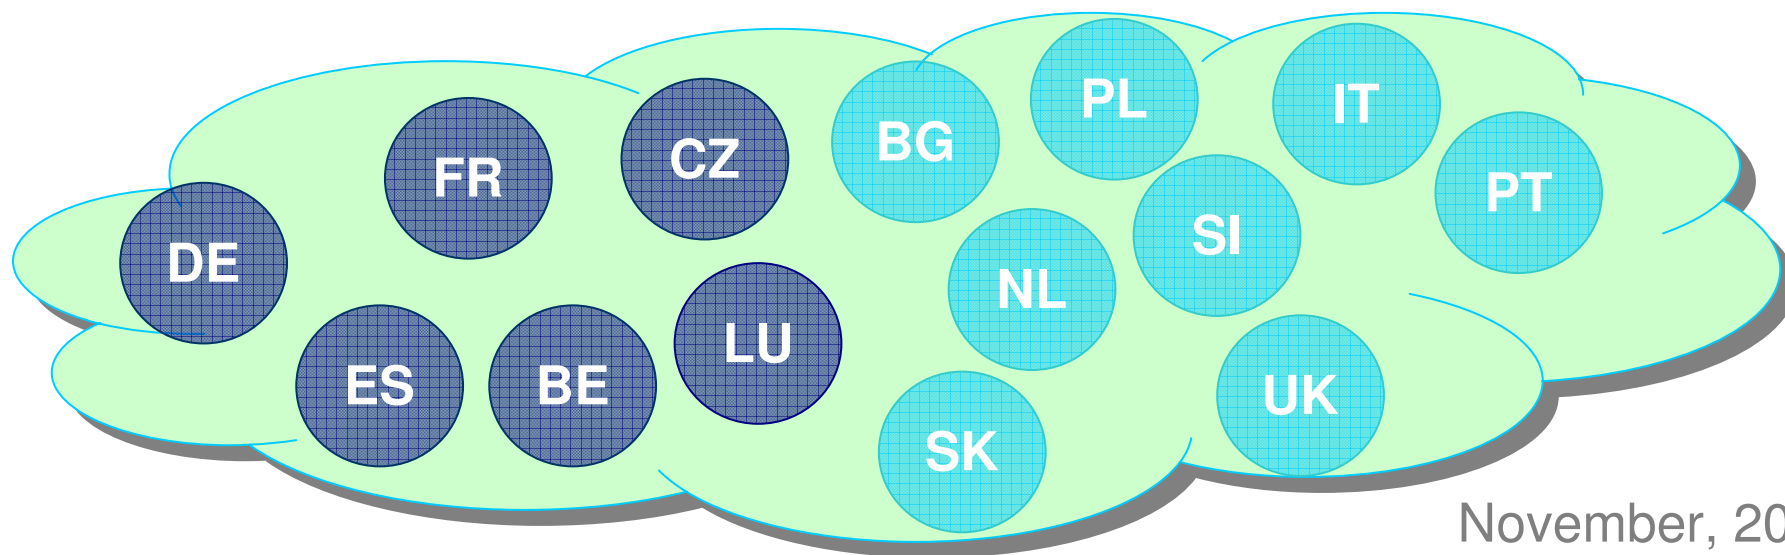

Change management rules and their consequences (?)

Special topic: “Reference Implementation”

- ? Who will be responsible for the maintenance and the further development of the reference implementation?
 - Decisions about new releases of the reference implementation (?)
 - Financing of „normal“ maintenance of the reference implementation (?)
 - Regular technical support for users of the reference implementation (?)
 - Roll-out of new releases of the reference implementation (?)
 - Maintenance of user-specific features (interfaces, etc.) (?)
 - Financing of „agreed“ changes of the reference implementation (?)
 - Responsibilities and financing in cases of agreed changes of the NJR data structure definitions and the NJR common reference tables (?)
 - Dependency on a special software development company (?)
 - Dependency on special systems architectures, hardware platforms etc. (?)
 - ... (?)
